

Shizuoka University Special Admissions for International Students
2020 Asia Bridge Program (second call)
Notice of Change in Method of Conducting Second Selection

As mentioned in the application guide released on Thursday, April 30, 2020, the second selection (interview examination) will be conducted by face-to-face interview at Shizuoka campus.

However, the spread of new coronavirus infection is still in severe condition. Under these circumstances, it is not appropriate for ensuring our applicants' health and safety to make them move across prefectures and take public transportation for a long time. We therefore decided to change the interview method.

The second selection scheduled on Wednesday, August 19, and Thursday, August 20, 2020 will be an ONLINE INTERVIEW.

<For the Applicants>

Please start making your preparations such as PC and internet connections to have online interview. Please note that the video-communication application used for online interview varies depending on the faculty you applied for. Please install the following application on your computer or smartphone in advance and practice it.

- Faculty of Science: Use Zoom.

<https://zoom.us/en-us/meetings.html>

- Faculty of Agriculture: Use Skype.

<https://www.skype.com/en/get-skype/>

Those who have passed the first selection (who take the interview) should have a connection check with Zoom or Skype before the interview examination. The arrangement of the connection check, date, time, and the method, will be informed immediately after the notification of the successful applicants of the first selection, so please check the email from Shizuoka University regularly.
